## BY TELEGRAPH. MIDNIGHT DISPATCHES.

WASHINGTON.

WASHINGTON, September 22.—President Grant and family returned this morning, and Secretary Cox and Attorney General Hoar called on him soon after his arrival. He subsequently visited the Department of State.

After the return of the President this

After the return of the President this morning, and particularly as he spent several hours with Secretary Fish at the State Department, muck anxiety was expressed as to the character of the conference, the supposition being that it had reference to our relations with Spain. This is probable, but there is no authority for the positive assertion. It is certain, however, that no action has been taken in the premises. taken in the premises. It is known that some time ago Minis

It is known that some time ago Minister Sickles was instructed to offer the United States Government as a mediator between Spain and Cobs, and representations had been made to it by respectable parties, who had visited Spain and obtained interviews with prominent persons, that its friendly offices would meet with favor—such offices not having been uncommon in our own history and that of other pations.

The Standard thinks that the loss of Cubs, and perhaps a part of Porte Rice, would be the certain result of a war be-tween Spain and the United States, and tween Spain and the United States, and here the mischief for Spain would end after some months of combat, for she must agree to peace. But this mischief would bring with it no corresponding good to the United States, as a war would cause a serious interruption of her commerce, and result in the wholesale destruction of her shipping; but it is not probable that the American Government will interfere further with Cuban affairs.

The Daily Telegraph estimates that

The Daily Telegraph estimates that the declaration of Father Hyacinthe is merely one of the many manifestations reveating the commotion in the Roman Catholic Church, which promises to make the Ecumenical Council the occa-

sion of anything but "spiritual peace."
Mr. Seward approached the Spanish
Government on the subject and had the
desired interview, contrary to the European telegrame, and there is no reason for supposing that the Spanish Government took offense or has sought to involve other governments in its action.

The Spanish Government, after ma-ture consideration on the sulject, has thanked the United States Government for its friendly disposition, but is not disposed to sgree to our proffered medi-ation between Spain and Cuba on the terms proposed. The end of the matter is simply that the mediation is declined.

The Secretary of the Treasury has su-thorized the payment of the coupons falling due on the first of November, upon a rebate of the interest at the rate of six per cent. per annum.

# MARYLAND.

BALTIMORE, September 22—George Peabody visited the Peabody Institute to-day during a meeting of the trustees, and made an additional donation of \$3,000,000 in Tennessee six per cent. bonds. This is designed by the douor for the erection of a building similar to and adjoining the present institute, the site for which has already been pur-chased. Any remainder of the above amount, after the construction of the building, is to be applied to a gallery of paintings and sculpture. Mr. Peabody, in his letter making the appropriation, refers to the pecuniary difficulties of Tennessee, but expresses confidence in the great natural resources of the State, and the high sense of honor of her people, and advises the trustees to keep these bonds for the present, as they are increasing in value, and when necessary to dispose of they can be soli at the highest price the United States bonds held by them will bring.

NEW YORK. New York, September 22.—It is re-ported that the injunction against the consolidation of the New York Central and Hudson River railroads was issued

by Judge Barnard at the instance of Jumes Fisk, jr., and others.

The Engineer of the Board of Health is about to present a plau for flooding the city daily, from the Hudson and East rivers by means of powerful pumps. East rivers, by means of powerful pumps such as are now used in London, located at every street corner, which will be fed by street pipes leading from the rivers Besides being made to serve as a washer of pavements, the salt water may be used

The Democratic State Convention nominated Homer E. Nelson for Secre-tary of State, and Wm. B. Champlin as Attorney General.
